Further information necessary before regulat- Medium ing drilling practices, but the category includes seismic wells, monitoring wells, etc.
Further study needed by DNR, CDH, Dept. Medium
of Ag., and others to better describe magnitude and scope of problem. This section is under jurisdiction of the Colorado Ground Water Commission.
CDH authority limited so that material injury to water rights does not occur.
Further study needed by CDH and others to Medium
identify magnitude and scope of this potential source.
Deals with supply, not quality issues.
Further study needed by CDH and others to Low
better describe magnitude and scope of problem.
Further study needed by CDH and others to Low
better describe magnitude and scope of problem.
